February 7, 2017

Chairman John Rouse
Waterways Management Committee
Carteret County
302 Courthouse Square
Beaufort, North Carolina 28516

Dear Mr. Rouse:

The Town of Beaufort respectfully request to be on your February 16, 2017 agenda to discuss the County's potential cost participation for the spring (April 1, 2017) dredging of bulkhead channel. This waterway provides a vital and safe route for both commercial and recreational vessels traversing Beaufort Inlet to Gallants Channel, Taylors Creek & Town Creek. Currently this channel is dredged twice a year, once in the fall and once in the spring. Recently the town received the spring estimate to dredge at a cost of \$213,000 (See attached email from the Army Corps of Engineers). Even though the cost share is \$70,000 (33%) the Town is requesting funding through the County and/or the Waterway Management Committee.

In the fall of 2016, the Town contributed the entire cost share of \$40,000 and did not request cost participation from the County. We now ask the County to consider funding the spring dredging. We appreciate the County's participation in past request and hope that you will look favorably on this request.

If you have further questions, please contact me at 252-728-2142 or at k.garner@beaufortnc.org

Sincerely;

Kyle Garner, AICP
Planning Director, Town of Beaufort

Subject: RE: [EXTERNAL] Date for Dredging Bulkhead Channel - Cost Estimate Enclosed
Attachments: Murden Bulkhead Channel April 2017.pdf; bulkhead channel - april - 2017 - BH_01_BH1_20170125_QTY.pdf

Kyle,

Good afternoon. As requested, enclosed is a total estimate of the cost to perform maintenance dredging within the Bulkhead Channel using the MURDEN. Work is tentatively scheduled for the first week in April. The estimate is based on the dredge box shown in the second attachment.

The dredging requirement is based on surveys performed in January 2017.

Our current working cost estimate for this work is \$213,000 for an estimated 8 days of dredging plus mob/demob and crew change days (see enclosed). A prior credit balance on this account has been applied to this estimate.

If you choose to proceed with proposal, please let me know and coordinate with Darren England so that the Corps can receive the funds no later than 3 weeks before the anticipated start of work.

If you need any additional information, please do not hesitate to contact me.

Jim
