Carteret County COVID-19 COVID-19 Vaccine Update Press Release #112

Carteret County, NC – To date, Carteret County has administered over 20,000 vaccinations. This week the County had two second dose clinics and two first dose clinics. Yesterday's clinic administered 2241 second dose vaccinations and today's clinic administered 1180 doses of vaccines. Tomorrow, the clinic plans to administer 900 second doses and 400 first doses. We are so grateful to staff, health providers, and community volunteers who have supported their neighbors and made these clinics so successful. We would also like to thank those that have been so receptive in getting vaccinated to reduce the spread of COVID-19. The County has been able to exhaust all vaccines received through these vaccination clinics, so the County does not waste or dispose of any additional doses in a vaccine vial. The continuances of these mass clinics and the eagerness of the community to get vaccinated plays a critical role in getting things back to normal.

Next week, the Wednesday March 31st clinic will have 1250 available first dose vaccination appointments and the Thursday April 1st clinic will have 400 first dose available vaccination appointments. Individuals who are eligible in Groups 1-4 can call 252-728-8550 and select Option 2 between the hours of 8 am- 5pm to schedule an available vaccination appointment. Walk ins are not available at clinics.
